Send ECG for analysis

1. Connect the net_ECG via USB cable to your PC.
2. Open the HeartX Lift application.
3. Click on *Send ECG.*
4. During the upload you have to authenticate in the web browser.

The ECG data is now transferred to our HeartX Holter evaluation service.

Download ECG Report

1. You will be informed by an email that your PDF report is ready for review.
2. Open the HeartX Lift application.
3. Click on *Get report.*

The report can now be opened from the configured Report Directory folder.
